Notes:
Maximum parcel size 20 acres.
Minimum parcel size 5 acres.
Staking authorizations: 45
Staking period: August 27, 2004 to January 24, 2005
All parcels staked on lands owned by the State of Alaska that contain land within 50 feet of a surveyed or proposed (un-surveyed) section line, are subject to a 50-foot wide easement on each side of the section line, which is reserved to the State of Alaska for public highways under AS 19.10.010. Parcels may not be staked over a surveyed section line. *Note: All section lines are surveyed within the Cannery Creek staking area.*
Parcels may not be staked across any public or navigable water body. Parcels are subject to a 50-foot public access easement along the ordinary high water mark.
Parcels are subject to a 100-foot building setback from the ordinary high water line of all water bodies. Some water bodies may also have staking setbacks or water frontage limitations.
A staking setback is required around unauthorized improvements. A staking setback is required around airstrips used by the public.
Most surveys (ASLS, USS) have survey monuments at each corner, which can be used as reference points when staking. See the survey plans for information on corner numbers, bearings, and distances. Monuments found in the field take precedence over the graphic record.
There are public access easements along most ASLS boundaries. Check the survey plans for additional information.
Trail easements have not been verified and their actual location may differ on the ground. Labeling of a trail easement does not guarantee the existence of a trail.
